

Professional Summary

MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled in developing responsive user interfaces, RESTful APIs, database management, and modern web technologies. Currently gaining industry experience through internships and real-world projects. Passionate about solving complex problems, learning new technologies, and contributing to innovative software solutions.

EDUCATION

Master of Computer Application, Sardar Patel University	2024-2026
Bachelor of Computer Application, Veer Narmad South Gujarat University	2021-2024

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SCSS, .NET
Lib/Framework: Angular, React, Node Js , Express, Bootstrap, Storybook, Nest Js, Next Js
Tools: Git, GitHub, VS Code, XAMPP, phpMyAdmin, Android Studio, CI/CD
Platforms: Digital Ocean, Heroku, GCP
Database: MySQL, PostgreSQL, MongoDB
Others: Quick Learner, Problem Solving, Self-taught programming, Teamwork, Leadership.

WORK EXPERIENCE

MERN Stack Developer Intern	May 2026 –Present
Unified Mentor Pvt. Ltd.	
- Developing and maintaining full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). - Building responsive and user-friendly interfaces with React.js and modern JavaScript. - Designing and integrating RESTful APIs for seamless frontend-backend communication. - Working with MongoDB and PostgreSQL databases for efficient data management. - Collaborating with mentors and team members using Git and GitHub workflows. - Participating in debugging, testing, and performance optimization of web applications. - Following Agile development practices and contributing to real-world projects.	
Full Stack Developer Trainee	Dec 2025 – May 2026
Upsquare Technologies	
- Leveraged MERN (MongoDB, Express, React, Node.js) stack to architect and develop scalable applications, building and maintaining RESTful APIs in live projects while ensuring seamless integration between frontend and backend systems. - Gained hands-on experience working on live client projects, collaborating with teams to develop real-world features and optimize application performance.	

- Designed and implemented responsive UI/UX interfaces using React.js, focusing on user-friendly design, component reusability, and seamless user experience.
- Contributed to both frontend and backend development, including API integration, database management, and debugging to deliver efficient full-stack solutions.

PROJECTS

Project Management Platform

Led a 17-member team to develop a comprehensive project management platform, showcasing skills in product management, architecture, and SCSS.

Travel-Bee

Designed and implemented a blog website using JavaScript, Node.js, Express.js, and Bootstrap.

Fitness First – Android Application

Gym management app with member registration, workout & diet scheduling, and appointment system using Kotlin, XML, SQLite

Travel Management System – Web Project

Travel & hotel booking portal with user authentication and admin panel Using HTML, CSS, PHP, MySQL
